

Organic Processing Training

Who: Processors interested in Organic Certification

What: 2-Day Workshop covering:

- USDA Organic handling & labeling standards
- Requirements for organic system plans
- Applying standards to your own operation
- What to expect during an inspection

Where: FAR^RMS Training Facility, Medina, ND

When: April 30 - May 1, 2009

The two-day course is recommended for processors who are not yet certified or those newly certified. A limited number of spaces are also available for organic inspectors and certification staff.

The workshop is co-sponsored by FAR^RMS and the International Organic Inspectors Association (IOIA).

This project is funded in part by NCR-SARE.
